

Brownlee To Give Public Address Here On Tuesday, May 20

Bassano People Will Hear Alberta's Premier in Election Address

The Hon. J. E. Brownlee, premier of Alberta, will be in Bassano next Tuesday, May 20, and will address a public meeting on the evening of that day. The prime minister will make the first election speech to be heard in Bow Valley in the coming election campaign, and will appeal to the people for the support of the present government.

In his election speeches in other parts of the province Brownlee has appealed for the re-election of the present government on the strength of their past performance, and he has particularly stressed the satisfactory settlement of the provincial railway and natural resources problem.

Mr. Brownlee's address will be given in the Masonic Community Hall at 8.15 p.m., and will follow on the heels of the U. F. A. convention at which a candidate will be named to carry the U. F. A. banner in Bow Valley.

PLANS MADE FOR JULY 1st SPORTS

Dominion Day Celebration, Cassels-Latham Road, and Other Matters Discussed at Board of Trade Meeting

Plans for Bassano's Dominion Day celebration on Tuesday, July 1, were laid at the Board of Trade meeting last Wednesday with the appointment of a committee to organize the carnival on that day. Two men, W. L. Flanagan and H. F. McDonald, were named for the committee, and they have power to add to their number.

Another step in the preparation of the sports day program was the appointment of A. F. Smith, local agent of the Crown Lumber Co., to the fair grounds trustees. A vacancy in the trustees was created by the departure of W. J. Blackie. Mr. Smith will act as secretary of this body.

The Cassels-Latham Road
The secretary read a copy of a letter which the Brooks Board of Trade sent to Hon. O. L. Thomson, minister of public works. The letter pointed out the urgent need of a good road from Cassels to Latham to enable the farmers of the Cassels and Bow Slope districts to reach Bassano and points west by a direct route instead of having to go around by way of Brooks and Duckworth. This matter was turned over to the public works committee, which has already done considerable work on the problem.

The Swimming Pool
Dr. Geo. Haworth reported for the swimming pool committee, and advised the board that the pool had been deepened under the diving board, brick placed on the floor at the deep end of the pool, and the dressing rooms changed around. He said there was considerable improvement work yet to be done, and as the funds of the committee were very low he advised that this work be done by volunteer labor.

In reporting for the cemetery committee Rev. P. C. McCrear said that the town council had agreed to extend the irrigation system in the cemetery.

Regarding the placing of electric lights at the stock yards, it was decided to bid this matter next September.

Rosemary News

ROSEMARY. May 15.—Mr. and Mrs. Jos. Rehargo and family, and Mr. and Mrs. Alex. Flanagan and family of Hinton, spent Sunday with Mr. and Mrs. Tangay. Mr. and Mrs. Theriot, of Bassano, passed through the colony Saturday. Mrs. Alf Narum spent the day Wednesday with Mrs. Gus Rehargo. Lillian Gallup, Mrs. Steve Bennett (formerly Miss Thelma Gallup) and her husband, arrived last Thursday from Charlie, Montana. They intend making their home here.

Earl Bee, of Bassano, was in town Friday.

Earl Bee, of Bassano, was in town Tuesday evening visiting their eldest son James, who is in the hospital. He is reported much

Trans-Canada Starts Season

The twelfth consecutive season of the Trans-Canada Limited, Canadian Pacific flyer de luxe across the Dominion will commence when the train leaves the Windsor station, Montreal, at 6.45 p.m. daylight time, Saturday, May 17 next. Canada's Permanent head boards divide each of the eight sections between Montreal and Vancouver in 80 hours, fifteen minutes and return in 86 hours, fifteen minutes. In the period of its running between these points the Trans-Canada Limited will make 268 trips up and September 27.

Eight million dollars has gone into the cost of

equipment for the Trans-Canada and this service will absorb 125 train crews and 24 engine crews. The sleeping cars—of all steel—are finished in rich walnut, upholstered in a colorful floral tapestry pattern, fitted with specially designed fixtures and carpeted and curtained in a deep shade of brown. Permanent head boards divide each of the eight sections from its neighbor giving increased privacy and two compartments and a drawing room, finished in similar style, take up the balance of the sleeper, apart from the unusually roomy dressing rooms for men and women. The dining cars are finished in a like manner and have forced ventilation whereby used air is sucked out of the car by powerful fans, ensuring complete freshness. Heat and cold rooms, as it is technically called, is featured by the unique solarium lounge car containing green tile bathroom, spacious dressing rooms and a lounge compartment, placed with vista-glaze to admit the ultra-violet and most beneficial sun rays.

Lay-out shows Trans-Canada leaving the Windsor Street station, Montreal, on its long journey; Solarium car, Lounge car and Ladies' shower.

Bearcats Win The First Ball Game

Bassano Nine Outwitting Queenstown To Win Initial Game 9-4

The Bassano Bearcats brought home a victory from Queenstown last Sunday in the first baseball game played in the Bow Valley league this season. The Bearcats had no trouble closing the offerings made by the home team, the Queenstown pitcher, and ran up a total of nine runs in the game to a score of their opponents.

Jacky Bulmer pitched the first two innings for Bassano, and was never in trouble at any time. He was relieved by W. Heyford in the sixth frame. Heyford got into difficulties several times, but was able to hold down the Queenstown batters to a few scattered hits.

Most of the local boys showed up well at the bat, and it looks as though the Bearcats are going to have a hard hitting aggregation this season. Artie Simpson, lead off man on the Bearcats' line-up, connected with the first pitched ball for two base hits, and his team mates taking the cue, followed with frequent and timely chases.

The Bassano line-up was as follows: Simpson 2b; Royal Burrows c.; Leonard s.s.; R. Marquardt 1b; Roach 3b; LePage c.; Graham 2b; Wheeler r.f.; Bulmer p. Heyford acted as hold down the Queenstown batters to a few scattered hits.

Mr. and Mrs. Hunter, of Millmont, were Sunday callers on Mr. and Mrs. S. Napper.

NEW SIDEWALKS

New concrete walks are to be laid this spring from R. H. Struthers' store to the Royal Bank, and from the Imperial Hotel to the Crown Lumber Co. yard.

Hussar News

HUSSAR. May 14.—The dance at the Atlas school on Saturday evening was well attended by the young people of Hussar.

Miss Evelyn Chiffard left on Sunday for Edmonton where she will graduate from the University of Alberta on Thursday.

Mr. and Mrs. A. A. Chiffard left on Wednesday morning to attend the graduation exercises at the university in Edmonton.

Mr. and Mrs. T. A. Hawkshaw were Bassano visitors on Sunday. Mr. and Mrs. H. D. Brown motored to Calgary on Tuesday.

Osborne Holand, son of Mr. and Mrs. E. A. Holand, arrived home from Minnesota on Wednesday. He has been attending school there for several years.

Under the auspices of the Women's Institute there will be a baby clinic for babies under six years of age, on June 4, from 10 a.m. to 4 p.m.

Miss Emerson is the nurse in charge. All mothers are urged to come early. It will be in the Community Hall.

There will be a sports program for school children on May 24, beginning at 8:30 in the morning. Among the most interesting events is the half mile race. The award is a silver cup, which won three years is to become the property of the winner. Frank Healey has won it for two years, and will return to compete for it this year. It is hoped there will be many entries in this event.

Ronald Benn returned from Turner Valley on Tuesday, and Clarence English came back with him to work for J. V. Elliott.

The Young People's Society closed their year's work with a banquet for the members in the Ladies Aid kitchen on Tuesday evening.

Sherry LeGrande is quite ill at the Bassano Hospital following an operation for appendicitis. Mrs. LeGrande visited him on Tuesday evening.

C. T. Armstrong was a Bassano

Hussar Juniors Win One And Lose One

HUSSAR. May 14.—The Hussar high school baseball team defeated the Bassano high school team here on Sunday afternoon, scoring 11 runs to 4 counted by the visitors.

This was the first game played here this season, and a large crowd turned out to watch it. E. P. C. Farley was umpire, and J. E. Bell score keeper.

The line-up was as follows:
Bassano: Bud Hogan p.; Austin Pout; Art Thompson 1b; Stanley Welch 2b; Ted Stiles 3b; Scotty Calhoun 1c; Roy Gayford r.f.; Bob McCreary c.; Herbert Landfield short stop.

Hussar: Jason Bell p.; Gordon LeGrande c.; Manville Anderson 1b; Graham McIntomery 2b; John Moffat 3b; Emerson Brown 1c; Ivan Anderson r.f.; Woodrow Elliott c.; Loren Moffat ss.

The Hussar boys lost to the Rockyford youngsters by a score of 9 to 5 in a game at Rockyford on Saturday afternoon. H. L. McCreary umpired the game, and A. M. Mahoney was score keeper.

visitor on Tuesday.

The Hussar Sunday school celebrated Mothers' Day on Sunday at brunch with a fitting program which was enjoyed by a large crowd. The program of songs, readings, and music followed the opening hymn and responsive reading.

The Hussar local of the U. F. A. met Saturday evening to elect delegates to attend the nominating convention at Bassano on May 26. The list of delegates selected is: B. Parker, P. Rogers, L. P. Scholting, F. J. Muller, Jim Brown, H. J. Byden, A. LeClere, J. W. Hein, L. M. Clark, E. P. Bell, Theo. Larson, J. E. Britton, Soren Jensen.

At this meeting final arrangements were made for leasing a site from the U. F. A. just east of the North side oil tanks, where the local will probably erect oil tanks for the use of the members of the local.

BIG PROGRAM PREPARED FOR HUSSAR STAMPEDE

Eighth Annual Event Scheduled for Saturday May 24th --- Horse Races, Cowboy Sports, Carnival and Dance Will Feature Victoria Day Entertainment

The eighth annual Hussar stampede and carnival promises to measure up to and may even exceed, the excellent entertainment provided by former events of this kind in Hussar.

Saturday, May 24th, is the day of the big celebration, and as it is a public holiday everybody will be able to attend and enjoy a full day of pleasure.

The various committees have worked hard in the preparation of the program. And they have not worked in vain, for they have prepared a splendid list of events for the entertainment and amusement of the crowd.

Stampede Events

The big attraction of the afternoon will be the horse racing, the bucking and steer riding contests, and other cowboy sports such as wild cow milking, Roman race, calf roping, barrel race, and demerit race. The races are going to be especially attractive, and some fast horses will be on the track. The race track was re-grassed and improved this spring, and is now in much better condition than last year.

Some of the best riders in southern Alberta will compete in the bucking contests. Slim and Leo Watrin, of High River, Pete Knight, of Crossfield, Sykes Robinson, of Jenner, are a few of the saddle celebrities who will be seen astride a bronc at the Hussar stampede. In the saddle bucking contest the first prize is \$100 with \$50 for second and \$25 for third prize. A new feature of the cowboy games this year is the wild cow milking contest. This should provide good entertainment for the spectators.

The stampede committee has provided 125 wild horses and steers for the cowboy sports, and some of 'em are real, fightin' wild.

Good prizes are being offered in the horse races, including a first prize of \$25 in the free-for-all race, one mile; second prize is \$15, and third \$7.50.

Children's Sports

A program of children's sports has been prepared, and will be run off in the morning starting at 9:30 o'clock. There will be races, jumping and other events for boys and girls of all ages.

The Carnival

Those who like to play the carnival games will find plenty to amuse them in the new and old games which will be in operation at the grounds. The games will be in operation all afternoon and also during the evening. Archie Ferguson will be the ballyhoon carnival. You are assured of getting a barrel of fun for your money.

Ice cream, candy, and ice cold drinks will be on sale at the stampede grounds, and the Ladies' Aid will operate a lunch counter. They will also serve food in the kitchen at the Community Hall.

The Dance

The day's entertainment will be wound up by a dance in the Community Hall, starting at 7:00 p.m. Peppy, up-to-date dance music will be provided by the Drumheller Six. The dance will be over at 11 o'clock midnight, so the day is Saturday, and dancing is not permitted on Sunday. Five hours of dancing will be provided, so the fox trotters will get their money's worth.

HOLMES GETS CONTRACT FOR SCHOOL ADDITION

H. A. Holmes, local builder and contractor, was awarded the contract for building the two room addition to the Bassano school. The contract price is \$2500.

Work on the foundation will begin soon, and the brick work will be done during the school holidays. The school is to be ready for use when school re-opens for the fall term in September.

CROP LOOKING GOOD

The wheat crop in this district is coming along in splendid shape, and

Amateur Play Makes Hit With Audience

Theatre Goes Who Saw "Nothing But The Truth" Enjoyed May's Hearty Laughs

They came to laugh, and they were not disappointed, for local theatre goers who saw "Nothing But The Truth" last Friday evening witnessed one of the best amateur productions ever put on in Bassano. It was a splendid comedy, and very well presented by the cast of local characters. Some declared it was just as enjoyable, just as well played, and just as amusing as "Are You a Mason?" which was put on by the Bassano Players last year.

Without going into details and extolling the splendid characterization of each member of the cast, it is sufficient to say they were all very good, each one playing his or her part in a natural and realistic manner. There was nothing stilted about the way any of the characters played. It was real, and, as the author of the play meant it to be, it was real funny. James Johnston, the director, got splendid support and excellent results from his troupe of amateur players.

The grandfather's clock and much of the stage scenery was prepared by M. J. McDonald, an unseen worker who deserves some praise.

After the show the floor was cleared, and dancing was enjoyed until a late hour.

The play was given in Gleichen on Wednesday evening of this week, and will be shown in Hussar Friday evening. It will also be presented in Brooks next Wednesday, and a second showing is to be given in Bassano some time in June.

Gem News

GEM. May 14.—Mr. and Mrs. Leslie Douglas were business visitors to Brooks last Monday.

Mr. and Mrs. R. Benjamin and Mr. and Mrs. H. Robinson and family were visitors at Mr. and Mrs. S. Selfridge's Sunday last.

F. Williamson, Mrs. D. C. Forney, with Gladys and Don, were among those who enjoyed the play in Bassano Friday last, in spite of the bad roads.

At the U. F. A. meeting last Saturday evening in the Gem school delegates were elected to go to the convention which is to be held in Bassano on May 20. The delegates are: Mr. and Mrs. J. P. Royer, D. C. Forney, A. P. Miller, W. S. Pollock, and H. J. Schrieber.

J. Leischer, from Peace River, is spending a few days in the Colony with his brother, T. Leischer. A bus service has been established in Gem. The bus leaves the post office at 6:00 a.m. and Wednesday, returning at 7:00 p.m. daily.

A big community dance will be held in Gem Friday evening, May 16. Freshy made, and he sure of a real good time. The orchestra will be composed of R. Lawrie, D. Forney, and W. Pollock. Don't forget the date.

The farmers are glad of the late moisture that has fallen. It has given their crops a good start. Prospects for a bumper crop in Gem are good. The Gem Community Club, meeting a few weeks ago the annual report was read, and the election of officers was held. The officers are: J. P. Royer, R. K. Douglas, R. T. Gray, to hold office for two years; F. Kunkle, M. Atkins, F. Williamson, to hold office for one year. F. Williamson and D. K. Douglas were elected chairman and secretary for the coming year.

Arrangements are being made for a big stampede the last week in July. The date will be announced later.

There is never in better condition at this time of the year. The young wheat is making good growth, and there is sufficient moisture in the soil to carry the grain along for many days.

NEW APPOINTMENT

R. G. McNEVILLE
Prominent among the spring promotions of Canadian Pacific Railway officials was the appointment of R. G. McNeill, as assistant passenger traffic manager of eastern lines, with headquarters at Montreal. Mr. McNeill, who was general passenger agent at Winnipeg, for eight years, left at the end of April for the east, his new appointment becoming effective May 1.

Mr. McNeill entered the service of the Canadian Pacific Railway in 1901, as a stenographer in the general passenger department, at Winnipeg, becoming chief clerk in 1905. In that year he became acting district passenger agent at Nelson, B.C., and district passenger agent at Calgary, in 1910. He was promoted in 1913 to the position of assistant general passenger agent, western lines, with headquarters at Winnipeg, becoming general passenger agent in 1922.

Before his departure for Montreal, Mr. McNeill was remembered by the members of the passenger department from the head of the lakes to the coast. He was a man of many talents, with a handsome figure, set, with a glass decanter and glasses, and a wardrobe suit case, the presentation made by C. E. McWhorter, who is now acting in an advisory capacity to the passenger department.

Received Visit From King

British monarch Shoua Kinsdome To Nurse Who Attended Him During Illness

Whitehall, in London's crowded East End, on Monday day had striking proof of the fact that King George V of England, did not forget.

For, although he has not yet completely recovered from his illness, he made the long journey down there from Buckingham Palace to pay a visit to 40-year-old Catherine, a member of the nursing staff of London hospital, who has been quite ill and now is convalescent.

The whole thing was done very quietly. A big car drove up without any escort of any kind. An elderly man in a big overcoat and a sweet-faced woman, dressed in a brown tunic, trimmed with gold, and a long, brown coat, got out and started down the new coming in, an unusual sight to see elderly couples visit the hospital.

But the King and Queen, at once knew this was no usual visit, as they saw Lord Knutsford, chairman of the hospital, and the hospital staff, bowing low, while several "Bobbies" stood stiffly at attention. The East Sisters took another look.

"Why is the King?"
"And the Queen?"

Inside a pale-faced woman, waiting in a special room, showed by her surprise and joy, and pride, that she knew who the visitor was to be. The man she had nursed back from death's door was now coming in to visit her.

The King and Queen, at once knew this was no usual visit, as they saw Lord Knutsford, chairman of the hospital, and the hospital staff, bowing low, while several "Bobbies" stood stiffly at attention. The East Sisters took another look.

Worms are encouraged by world conditions of the stomach and bowels, and so subtle. Miller's Worm Powders will after these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young.

In Free Russia
Land, Livestock, and Implements Belong To the Community

Frequently one wonders why communists who enjoy all the privileges of liberty, stability, protection and progress in Canada do not go to the Soviet Russia, which they claim to admire so much. An explanation of the collective farming policy, printed in Pravda, official Soviet publication, explains that the land, live stock and implements belong to the community, which means that no one as the individual is concerned they belong to nobody. The farm workers get from 40 kopecks (25¢ cent) to 1 ruble 20 kopecks (60¢ cent) per day of ten hours. Out of this they must buy their food and clothing and pay their trade union dues.

Elevated playgrounds about 14 feet above street level are proposed for the use of children in New York's crowded tenement districts.

Spain's first olive oil congress was recently held at Madrid.

Pleased With Tour

British Headquarters Enthusiastic Over Reception Accorded Them in Canada

The party of English headmasters, who have been touring Canada, returned to Toronto enthusiastic over the reception accorded them through the tour would result in the right kind of English boy being sent to Canada.

Dr. Cyril Norwood, chairman of the party, said that after studying Canadian educational methods, they would give "quality immigration." "We shall not advise our boys to come to Canada, unprepared, without money, expecting to find poets waiting for them," said Dr. Norwood. "We shall tell them there are excellent universities, and that after leaving them they must make opportunities for themselves." Dr. Norwood believes that members of the Nordic strain are easily assimilated into the country, but that the flow from central Europe should be stopped.

Asthma Doesn't Wear Off
Do not make the mistake of waiting for asthma to wear away by itself. While the doctor is waiting the disease is surely gathering a stronger foothold. Get it under control now. Sound sleep. New pep from very first day. Two great tonics in one—special weight-building Milk Yeast and strengthening Tablets. Get stronger than you ever were. Results in 3 to 5 days. No nasty taste. No gas.

Thieves Interfere With Scotland Yard System
Use Police Radio Signaling Length To Block Messages

Thieves in London are employing their own broadcasting set to frustrate the radio-signal system of Scotland Yard. Recently when the police attempted to broadcast to squad cars the news of a jewelry store robbery, it was found that the squads could not pick up the signals because some secret station, using the same wavelength, began oscillating and jamming the police messages. (Using an interference loop, repeated efforts have been made to trace the offender, but unsuccessfully because it only operates when the police broadcast information of crimes.)

Ice-Skating In Vienna
Vienna, Austria, boasts one of the largest artificial outdoor ice-skating rinks in the world. The sport is enjoyed there throughout the year.

The rink accommodates eight thousand persons. The huge machinery which makes the ice is almost as much of a wonder as the rink itself and has served a model for other similar enterprises.

Learns To Read At Eighty-Two

Can "Good" Be Accomplished By "Force"? Canada Has Barred Importation Of Parrots

Through the ages man has struggled upward from his cavern state. His present condition is semi-civilized, but it requires only a hurried glance through the columns of any daily paper any day to prove that man is not yet fully civilized. He has carried with him the brute instinct to try and accomplish things by force rather than by persuasion, instead of trying to win support by his views and convictions, he has tried to force it. "The more civilized, the better educated man becomes, the more does he rely upon violence to reason instead of having resort to force. None the less, the state of the nations today, and our tendency to resort to the power of legislation and law to enforce opinions upon others, reveals how largely we still depend on force to govern our everyday affairs."

The question, therefore, naturally arises: How any definite lasting good ever come to humanity through the exercise of force? Could one by a single, unpremeditated instance in the whole range of human history say that compulsion has been the direct and sole agency in changing the mental attitude of the people, the convictions or the conscience since any one human intelligence? Without reserve one may venture to say "No." In both instances.

There is profound truth in Butler's couplet: "He that compels against his will is of his own opinion still." One may be persuaded to change one's mind, to take a different viewpoint, to espouse another belief, to modify or discard a long-held conviction, to give assent to a new direction, and through all to act differently, the action being either good or bad according to the prevailing general opinion, but it is sincerely to be doubted that force in any matter that its form or its avowed purpose, ever has or ever will bring about the only thing, a change of mind, without the voluntary conversion of the individual mind and heart, that is, of thought and conscience, there can be no reasonable expectation of bringing about, definitely, permanently and dominantly, a new condition, social, economic, political, ethical, or moral. All our social reforms, our political reforms, our legislative reforms, do not do so, to ponder this phrase and pay close heed to the lessons of experience and history.

If we would state impartially the action of unrelenting force directed with the ostensible purpose of producing eventual good, we may turn our eyes toward Russia today. "True, the conflicting forces coming out of the country appear to be drawing conclusions with a certain reserve, yet there is enough of what appears to be authentic to warrant the present view of the Soviet Government of Russia is in complete compliance in the fullest meaning of the term, to impose its minority, completely organized will upon the unorganized great majority of that vast country."

The Communists may tell us, as well as some three-fourths of the people of Russia, that, through "propaganda" they have won their chief agency for the building of a "New Russia," but it is propaganda backed by armed force, by secret police, by studied craft, and by unrelenting ferocity. Putting the most favorable construction upon the Soviet methods for the complete communication of Russia, they are trying to do what they consider to be good practically altogether by the exercise of force. A marvellously organized minority seeks to compel a helplessly disorganized majority to accept without question its views as to what is best for the political, social, economic and moral wellbeing of the whole.

And all history tells us that this cannot be done. Reform by force lasts just so long as the force which brought it about is strong enough to maintain it. Force not only invites opposition, but generates it. And soon or late, the opposing force becomes more powerful, and we have another chain of forces, more disturbance and confusion, reaction, or, perhaps, some more compulsory "reformation." But we cannot say confidently that out of it all has come a single, definite step of progress. Force is the antithesis of co-operation, and without the voluntary co-operation of all the interests involved there can be no genuine progress.

What is true of Russia just now, would be equally true of any other country or state, or community. No matter how despotic, tyrannical or initiated reform may be, force, if applied to it, eventually will defeat it. Without the voluntary and earnest co-operation of a pronounced majority of all concerned even unopposed good is not likely to be achieved. And surely no intelligent person would be content with "forced good."

An order was made recently, at Blackpool, Eng., for the payment of a debt of \$60.00, at the rate of one cent a month, which will require more than 80 years to clear up the account.

Minards Checks Falling Hair.

First Outbreak Of Parrot Fever Is Reported From British Columbia

Canada will declare immediately an absolute embargo on the importation and transportation of all birds of the parrot species as a result of representations from the British Columbia Department of Health, which is now engaged in systematic efforts to stamp out parrot fever.

Memorable the Dr. H. E. Young, provincial health officer, and his department, are engaged in a systematic campaign to confine the outbreak of parrot fever to a few cases around Vancouver.

They have been in telegraphic communication with United States authorities to secure the latest possible information on the subject.

This is the first outbreak of this disease, so far as we know in the history of Canada. Dr. Young said.

The health department here has records of all parrots brought into Canada from the Orient in recent months and is endeavoring to ascertain their present whereabouts so that they may be examined.

WAS RUN DOWN AND VERY WEAK

Too Little Blood In The Trouble

Mrs. J. A. Hough, Bridgeport, N.S., writes: "I had run down and very weak. So much so I could scarcely do my housework. My nerves were affected, my digestion poor. I had continued headaches and was very nervous. I had a sleepless night's sleep. I had a sleepless night's sleep. I had a sleepless night's sleep."

One day, however, I saw an advertisement of a case similar to mine. I had been told by Dr. Williams' Pink Pills, so I decided to try them. A few weeks' use of the Pills fully restored my health and now my household duties are a pleasure instead of a torture.

Mrs. Hough's whole trouble was that she had too little blood. Dr. Williams' Pink Pills were of aid to her blood and that good blood promoted good health, for where blood is, health is.

You can get these Pills from any dealer in medicine or by mail at 50¢ per bottle. Write to Dr. J. C. Williams, Medicine Co., Brockville, Ont.

Dates From Middle Ages
The expression, "The weakest goes to the wall," dates from the Middle Ages. In those days churches lacked power, and the congregation stood in the rush-strewn floor of the nave throughout the service. Along the wall ran a low stone seat, which was used by the aged and infirm. The seats which gave rise to the expression may still be seen in some churches.

Mothers Value This Oil
Mothers who know how anxious their child and how necessary a prompt action in its applying, always keep at hand a supply of Dr. Thomas' Eucalyptic Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise for its various uses render it a valuable medicine.

Love not only "makes the world go round," but makes many a human inhabitant of the world go straight.

Douglas' Egyptian Liniment should be in every household. Stops bleeding at once, soothes wounds and prevents blood poisoning. Keeps away inflammation and prurient fleas, etc.

Air Service For Venues
Venice, the famous gondola city of Italy, is to have airplane connection with the outside world. A new commercial air service from Trieste to Venice is making its debut. It will stop there, where it connects with the lines from Vienna and Rome. Endorsed seaplanes are being used.

"I Was Skinny and Tired. Now Peppy. Gained 11 Lbs."

"I had tired feeling, no pep, but I tried Yeast gave me pep; much that I gained 11 lbs. Bolls and plump disappeared."—Mack Latto.

Amazing new Ironated Yeast adds 5 to 15 lbs. in 3 weeks. Changes "skinny," weak body to strong, well-developed form in 3 weeks. Gives skin gets clear and rosy like milk. Nervousness, indigestion, constipation disappear overnight. Sound sleep. New pep from very first day. Two great tonics in one—special weight-building Milk Yeast and strengthening Tablets. Get stronger than you ever were. Results in 3 to 5 days. No nasty taste. No gas.

Don't be "skinny," weak, unattractive. Get Ironated Yeast from drug gists today. Feel great tomorrow. Money back from manufacturer if not delighted with quick results.

MacDonald's Message To McGill
Turns To Scriptures For Advice To University Students

Premier Ramsay MacDonald draws inspiration from the Bible in his message. "You are asked to pass a message to McGill students through the medium of the McGill Annual, which is dedicated to the Scriptures."

"I write this looking over the rural game of Chequers Park, but with McGill in my mind." Premier MacDonald states in his message. "You are asked for a few words more for the students. What they? 'Whatsoever ye have heard, have ye done, do it with all your might.'"

Protecting Wild Geese
Manitoba Airman Fined Ten Dollars For Chasing Them

For disturbing the peace of Manitoba with geese, a pilot flying in an airplane, Philip Oler was fined \$10 and costs by Magistrate R. M. Noble in provincial police court.

Game Warden Burnard, issued the court that Oler had worried thousands of the birds, during the close season, upon his mission. He sued them between Russia and Meadows.

He was told to advise his aviator friends to cut out the sport.

Waging War On Accidents.
Only 10 per cent of safety can be assured by perfection of mechanical detail and the remaining 90 per cent is a matter of education, delivered by W. D. Darling, of Cincinnati, before the Ontario Safety Convention.

Darling, a blind man, told an attentive audience of his own personal experience, of an accident which brought disfigurement and loss of sight, and he urged with eloquence that the work of preventing industrial accidents should be prosecuted with unremitting energy.

Live birds are liberated from a postcard cage when a ship is christened in Japan.

In the last ten years the Canadian Pacific has spent \$100,000,000 on new vessels built in British yards.

Sub-Amendment To Budget Proposed By Progressive Group

A sub-amendment to the budget made its appearance from the Progressive group. Moved by W. R. Fawcett, Progressive, Lead Mountain, Sask., it reads as follows:

"That all words after 'it is of the opinion that' in the amendment in the 10th line thereof be struck out and the following substituted therefor:

"The government having definitely adopted the principle of increased protection, modified only by certain extensions of the British preference, it is to be regretted that more effective consideration has not been given to the position of agriculture and labor, but that, on the contrary, the changes made in the iron and steel schedules will result in an increased cost and the structural work and the iron and steel production, and further, that the best interests of Canada would be served by a more substantial increase in the British preference for such articles as affecting textiles and other articles of a similar character, together with a modification or abandonment of tariff regulations requiring a 50 per cent. Empire content which have largely nullified the effect of any preference given."

"That a much larger proportion of our revenues should be provided for through direct taxation, more especially through the income tax."

"We further wish to state our conviction that these and other changes in our fiscal policies are not of themselves a solution of our economic problems, but that effective encouragement should be given to the development of our natural resources, principles, having regard to production, distribution and the utilization and control of credit."

Mr. Fawcett asserted that the regulation which requires that there be 50 per cent. British materials and workmanship in order that they may obtain the benefits of the preferential tariff, was making it harder and harder for producers to come into Canada from Great Britain.

Negotiations Have Failed

Anglo-Egyptian Conference Came To Deadlock Over Sudan

London, England.—Anglo-Egyptian negotiations for a treaty have collapsed and the Egyptian delegation is returning home forthwith. While no official communique was issued, it was authoritatively stated that the rupture took place over Egypt's claims regarding the Sudan.

Nahas Pasha, the Egyptian premier, demanded that the whole Sudan be recognized as Egyptian territory to be administered jointly by Egypt and Great Britain. Sir H. Arthur Henderson, the British foreign secretary, refused to concede this.

When it was found that an agreement was impossible Mr. Henderson addressed the conference, saying that the greater part of the British public would be sorry that a settlement had not been reached.

Nahas Pasha replied that the Egyptian public also would be grieved because there was nothing the Egyptians wanted more than to be on good terms with the British. Mr. Henderson then added that he wished it to be understood thoroughly by that the door must still be open and that if either side thought better of the situation the treaty was still there to be considered afresh.

Increase In Savings

Bank Deposits For March Showed Considerable Advance

Ottawa, Ont.—Savings deposits in Canadian banks increased by \$15,877,817 during the month of March, according to the bank statement issued through the Department of Finance. At the end of March, savings deposits held by the banks totaled \$1,455,211,992. There was a decrease during the month in the amount of cash loans held outside Canada by the banks, and an increase in the amount held in Canada.

Takes Heavy Toll

Auckland, N.Z.—Infantile paralysis is taking a heavy toll of natives in the Solomon Islands, and on the island of Cruz group more than 80 deaths have occurred in recent weeks. Most of these cases have been isolated and several new hospitals have been established to take care of the epidemic.

W. N. U. 1387

Elimination Of Weed Seeds Is Discussed

Proposition Made To House Of Commons By G. G. Cote

Ottawa, Ont.—Elimination of weed seeds from feed oats and barley was proposed before the agriculture committee of the House of Commons by G. G. Cote (U.P.A., Macleod). He wanted the establishment of feed grade of these grains free from weeds and believed weed seeds could be cleaned out of oats and barley.

The difference between the grain of feed oats and of seed oats in the present schedule of the Act, it was explained, is that feed oats might be frozen. Other members of the committee considered the suggestion impracticable. The matter was left over for further consideration.

BRITAIN WOULD CONSIDER LAND SETTLEMENT AID

The P.A.S. Man.—The British Government is ready to consider any scheme for land settlement in the Carrot River Valley.

According to a letter received by town officials from the secretary of state for dominion affairs, the Carrot River Valley lies to the southwest of The Pas, and includes land in both Manitoba and Saskatchewan.

The letter from the overseas department points out, however, that settlement and land disposal would necessarily be subject to certain conditions, such as the Empire Settlement act of 1922, and financial support from either the Federal or Provincial Governments or both. The letter also points out that the British Government must not contemplate purchase or ownership of land in Canada for settlement purposes.

The communication from the British Government says in part that "consideration by His Majesty's Government in the United Kingdom of any scheme of settlement and development must necessarily be governed by the provisions of the Empire Settlement act of 1922, which empowers the secretary of state to enter into agreements with the association with the government of any part of His Majesty's dominions or with the public authorities or public or private organizations either in the United Kingdom or in any part of the Empire, to formulate and execute any scheme for settling subjects of the United Kingdom in any of His Majesty's overseas dominions, provided that the contribution of the secretary of state shall not in any case exceed half of the expenses of the scheme."

"Subject to the above conditions His Majesty's government in the United Kingdom would be prepared to give careful consideration to any concrete proposals for promoting land settlement in Canada, by migration from the United Kingdom, provided such proposals were approved and recommended by, and preferably recommended by a financial contribution from His Majesty's government in Canada or from the provincial government."

The secretary was instructed by the cabinet to forward a copy of the letter to the Minister of Natural Resources in Winnipeg, and also to the Premier of Saskatchewan.

One of the applications which may be granted very soon is one from the Canadian Pacific Railway for permission to erect three high powered broadcasting stations, one in Montreal, one in Toronto, and one in western Canada, at a point to be selected later.

The general impression on Pacific Hill is that the committee selected by the House of Commons to consider the recommendations of the royal commission that investigated the situation in the United Kingdom of the impending dissolution of the Empire of the problem that the committee will give an opportunity to crystallize public opinion either for or against public ownership and in the meantime the report will be allowed to stand over.

"Wop" May Visits Ottawa

But Distinguished Aviator Slips Away Without Seeing Officials

Ottawa, Ont.—Slipping through the city so quietly that officials of the Department of National Defence, who had been waiting for him, did not know that he had actually been here, Captain W. R. "Wop" May, Edmonton, recently awarded the McKee trophy as the Canadian having completed most to the cause of aviation in 1929, paid a brief visit to the capital on May 6.

Since the award of the trophy was announced, air officials have been anxious to get in touch with the pilot, to inform him of his success. But Capt. J. L. Hamilton, Minister of National Defence, became aware the winner of the trophy was in the city, his departure without delay. He has been delayed in order that formal presentation might be made to him of the great honor he takes such well.

May came down into the Ottawa River, opposite Rockcliffe aerodrome, in one of the new biplanes, which he had purchased by the Airways Company of which he is chief pilot. After refueling and having a brief chat with mechanics—during which he spoke rather bashfully of his success in being awarded the trophy—May took to the air in a biplane, bound for Sault Ste. Marie, and eventually Edmonton.

His Majesty's wealth is estimated at \$12,500,000,000, and that of Germany at \$97,500,000,000.

Plan Important Survey Work

Far North Area To Be Mapped From Air

Edmonton, Alberta.—Aerial surveys of the far north, inspection work by three field parties under direction of the Department of the Interior, opening of a branch office at Fort Smith, and the transfer to that point of staff from Winnipeg and The Pas, have been announced here.

An aeroplane base is to be established at Fort Resolution, arrangements having been made by the Department of the Interior with The Royal Canadian Air Force. This will be utilized to facilitate important survey work which was recently undertaken by the Federal Government.

These steps to increase staff and services in the far north are being given first preference to returned soldiers by the Department of the Interior in view of the enlarged operations of exploration companies and prospectors.

Exhibiting At British Fairs

Canada Taking Part In Eighteen During Present Year

Ottawa, Canada is participating in 18 exhibitions and trade fairs in Great Britain during the present year, in addition to the British Industries Fair which was recently held at the Olympia Building, London, England. Most of these exhibitions are being held under the auspices of the Empire marketing board and will enable Canadian produce to be exhibited in most of the principal centres of England, Scotland and Ireland. In addition, Canada is actively participating in the six month international exhibition at Antwerp, which opens on April 26.

Request Will Be Considered

C.N.R. May Make The Pas Divisional Headquarters

The Pas, Man.—The request of the town officials that the P.A.S. be made a divisional headquarters for the Canadian National Railways line in northern Manitoba, will receive active consideration, according to advice received from the department of railways and from Sir Henry Thornton, C.N.R. president.

A letter received by the town clerk states that the minister of railways will make enquiries in the matter, and will keep local officers advised of developments.

CIVIL RIOTS IN INDIA REPORTED TO BE SUBSIDING

London, England.—As suddenly as they began, the civil disturbances subsided. From a wide field of view of violent encounters Mahatma Gandhi's campaign of non-violence against British rule, which was met by a few widely separated clashes.

The worst of these, costing nine lives, occurred at Chittagong, which was also the scene on April 18, of a battle in which two Europeans and a Canadian were killed. At Calcutta armed police were compelled to act. A mob raided the police station, smashed in its iron gates and there was shooting. Several police officers suffered injuries and 25 arrests occurred.

Similar reported outbreaks of civil disorders had occurred in recent days. In the civilian hospital 96 persons were treated. To this number were added 15 police injury cases. The situation was about to improve when a dangerous riot at Calcutta broke out. The police were called in to restore order. The words were in the air. The words were in the air. The words were in the air.

Advices from Delhi stated that the situation was about to improve when a dangerous riot at Calcutta broke out. The police were called in to restore order. The words were in the air. The words were in the air. The words were in the air.

The arrival of V. J. Patel at Bombay, and his proclamation for the people of India to accept his attitude, was the last word in the matter. The words were in the air. The words were in the air. The words were in the air.

Thus far the government forces have emerged with only one fatality, the killing of a British soldier. This was pointed to as a matter for congratulation as well as an indication of the prompt action taken by the authorities.

Wheat Producers Have Nothing To Gain By Cutting Down Acreage

Aviator Makes Heroic Flight

But Failed In Effort To Save Life Of Wounded Boy

Edmonton, Alberta.—An heroic 160-mile trip by plane from Grande Prairie to the bush-covered Sturgeon Lake area 80 miles to the eastward, and return, failed to save the life of a 17-year-old boy who was accidentally shot, according to meagre reports just received in Edmonton. The cause of the youth is at present unknown.

Flying Officer Sparhawk, of the forestry patrol at Grande Prairie, started on his mission in a desperate effort to reach the wounded youth, and after dodging and twisting between trees, finally landed his machine a mile and a half distant from the boy's home. The last was brought over the intervening distance in a wagon, across a corduroy road. He died while the plane was speeding toward Grande Prairie.

Canada Is Confident

President Of C.P.R. Sees Good Future For Business

Montreal, Que.—General confidence throughout Canada is unshaken by the combination of unusual conditions which has developed the present situation, the country's strength has been effectively proven and the future is not to be viewed with any degree of apprehension, in the opinion of E. B. Hooley, chairman and president of the Canadian Pacific Railway, as declared to the shareholders of the company at the annual meeting held here.

While a number of factors, particularly the failure to market Canadian grain, have caused a loss of confidence, it is felt there is nothing of a fundamental character to prevent the return of normal business conditions within the next few months.

Pioneer Flying Trip

New York Aviator Will Fly To Out Northern Route

Saint John, N.B.—An eight-to-ten-day long-distance flying trip from New York to the northern route, and then on to Alaska and the Yukon, will be made by Louis Blériot, who left for the trip on May 1, 1931. He is a representative of the Junkers Corporation, which is planning to establish a northern air route connecting Asia with the United States and Canada in a commercial way.

SUNDAY SCHOOL LESSON

MAY 18

JESUS TEACHING IN THE TEMPLE

Golden Text: "Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the great and first commandment. And a second like unto it is this, Thou shalt love thy neighbor as thyself." Matthew 22:37-39.

Lesson: Matthew 22:1 to 23:39.

Devotional Reading: Psalm 139.

BASSANO, ALBERTA

Here and There

Spring seeding in the west is proceeding at a rapid pace, according to report at the end of April from the agricultural department of the Canadian Pacific Railway at Winnipeg. Taking the three prairie provinces as a whole it was then estimated that 45 per cent. of wheat seeding is completed, with some districts in southern Alberta reporting between 50 and 65 per cent. finished. Heavy showers have somewhat retarded progress in north-western Saskatchewan.

KILL THAT FLY!

Our old enemy the house fly will soon be with us again. He never fails to come around when the warm weather arrives. To annoy people and to cause trouble seems to be his special aim in life. From the baby's face to father's bald head, to the milk picher and to the food, are some of his journeys well known to all of us. Yet in spite of this, and possibly because he is seen too often, it is doubtful if many of us ever fully realize the danger and filthy ways of this common pest.

The house fly lays her eggs (150 at one time) in fresh human manure. She prefers it, but she will use any heap of garbage or filth. With a very short incubation (two weeks) period it can be seen how rapidly flies will multiply unless they are controlled. Naturally the best way to control the fly is to destroy the eggs or maggots before their wings are developed and they can move about rapidly.

Why is it necessary to destroy flies and keep them from hatching? All flies can carry disease germs; they are all filthy in the extreme. The legs of flies are provided with a great many short hairs (100) or bristles and, as the fly walks, these bristles contain disease germs, some of these are collected and held by the hairs. When the fly goes again to take a drink from the milk or from the bowl of the germs will be left behind in the milk or on the food.

COAL IN SASKATCHEWAN

REGINA—Saskatchewan lignite was placed definitely in the commercial class when the first tests to illustrate the utility of the coal were made in Regina the other day, says the Canadian Press. The tests were conducted under the direction of Hon. J. A. Mackay, provincial minister of railways, labor, and industries. The development of a great coal industry in the southern part of the province is predicted, as well, from the engineers' findings.

When these are swallowed later with the food by the baby or anyone else, they may cause such disease as typhoid, diarrhea, dysentery, or other illness.

Experiments with the house fly prove that it can be best controlled by sprinkling the infected parts of the manure with a three per cent solution of Tyman's disinfectant. One gallon of disinfectant makes 223 gallons of the solution and costs about six per cent per horse. The solution should be applied about every second day or sufficiently often to ensure that all maggots are destroyed.

For the few that still escape this treatment a man may should be employed by sprinkling the infected parts of the manure with a three per cent solution of Tyman's disinfectant. One gallon of disinfectant makes 223 gallons of the solution and costs about six per cent per horse. The solution should be applied about every second day or sufficiently often to ensure that all maggots are destroyed.

Local News

Mrs. Jessie Haworth is visiting in Edmonton this week.

Mrs. J. H. Brewer returned to Calgary last week-end.

Ervin Young was in from the farm at Majorville last Saturday and Sunday.

J. Munford, of the main office, Calgary, has joined the local staff of the Royal Bank for a few months.

Magnus MacLean is now using a G. M. C. truck for hauling and for carrying the mail in and from the trains.

W. J. Blankenship, who recently moved to Ontario, has been appointed manager of the Royal Bank branch at Moose, in that province.

Bob Scott, of the provincial department of municipal affairs, is back in Regina for the summer. He is driving a new Hampshire six-couper.

The local amateur play "Nothing But The Truth," will be presented in Regina Friday evening this week.

Miss Griffiths, from near Ottawa, Ontario, is a stenographer in the C. P. R. D. N. E. office, taking the place of Miss Myrtle Elliot, who is leaving to be married.

Saturday next week May 24, at Victoria Day, and a public holiday. All stores, banks, and the post office will be closed.

Orline Hartley left Tuesday evening for Edmonton to attend the graduation exercises at the University of Alberta. He is the son of Mr. Hartley, who is attending the University of Alberta. He is the son of Mr. Hartley, who is attending the University of Alberta.

Mr. and Mrs. T. A. Hawshaw were down from Husar last Sunday. T. A. played a few rounds on the golf course. He walked with a little white ball just as far as ever.

The Husar Players put on their "Nothing But The Truth," in English on Wednesday evening this week. The attendance was small, as there were other attractions the same evening.

The Husar eighth annual stampede will be held next Saturday, May 24. The Husar Board of Trade under whose auspices the stampede is being held, have prepared a fine program of horse races, bucking and roping events, and other attractions.

Marion Haynes passed through town last week. He journeyed to Regina, and from there expects to go to Smoky Lake or some point in the Peace River country as relief agent for the Alberta Government vendor's department.

NOTES ON THE 1932 WORLD GRAIN SHOW AT REGINA

O. S. Aamodt and J. M. Mason, of the department of field crops, Alberta, have issued a neat booklet on the production and preparation of seed for exhibition.

After reciting the many prizes for grain won by Alberta growers, the authors say, "In 1932 there is to be held at Regina the World's Grain Exhibition and Conference. The sum of over two hundred thousand dollars is to be given away in prizes. On the basis of past performances Alberta has a right to expect a considerable share of the honors for quality production as well as of the prize money."

A correspondent from Charlottetown, Alberta, writes: "The local board of trade is sponsoring a field crop competition for the Charlottetown district this year for the purpose of improving the standard of farming operations and as an incentive to the growing of better seed with the hope that some of our farmers will be in the World's Grain Exhibition at Regina in 1932."

According to officials of the Dominion Department of Agriculture more than a dozen varieties of the soybean can be grown successfully in Canada, as it grows under essentially the same conditions as corn. The forty-eight soybean prizes at the World's Grain Show in 1932 amounting to \$2000, with two firsts of \$150 each, should attract Canadian growers to try their luck.

The government of New Zealand has formally accepted the invitation to participate in the World's Grain Show at Regina in 1932. New Zealand is the first of the British dominions to accept. As hemp, wheat, oats, barley, and other cereals are among the grain and seed produced in that country her growers should make a good showing in the competitive classes.

CRAWLING VALLEY NEWS

CRAWLING VALLEY May 14—Mrs. Thew and Mrs. Robbins visited Mrs. Roy Robson on Tuesday afternoon.

Mrs. Mildred Holland and Donald McKinney were married at Daugherty last Monday.

Mrs. Roy Robson and daughter and Mrs. Robbins were in Husar one day last week.

Mrs. Whitney and Mrs. Kathleen Carpenter visited Mrs. Roy Robson Thursday afternoon. Mrs. Whitney had the misfortune of running a pitchfork line through one of her fingers.

A new ferry will soon be in use at Daugherty.

Mr. and Mrs. Reese and family of Husar visited at the Nat. Bait house on Sunday.

Gladys They visited the Keener kids Sunday.

Mr. and Mrs. K. J. Harper have moved from the Burton section where they will be back soon.

Mrs. Robson and daughter had supper with Mrs. Thew Sunday, and also on Mrs. Robbins on the way home.

Seeding is finished in the district, and much of the wheat is up and running fine.

Mrs. K. J. Currie and daughter also on Mrs. Roy Robson while Mrs. Currie was home during the Easter vacation.

The McKinney family enjoyed a birthday dinner at the Vermilion home on Sunday.

KEEPING FEED AND WATER CLEAN ON THE RANGE (Poultry Notes)

With the ever increasing danger of parasitic infection due to the intensive methods now in vogue in the raising of livestock, the handling of the living and brooding stock, it behooves breeders to adopt every sanitary precaution to protect the health and well-being of their young chicks.

Infection through the drinking water and feed, while on farms, should be avoided by water standing for the feed troughs and drinking vessels to that there will be no chance of infection through the consumption of food that has become contaminated by coming in contact with the droppings on the ground or through the drinking of water that has fouled puddles on the ground around the drinking place.

For this reason all feed and water should be supplied either from high pipes or the dry necks or from troughs for the scratch grain and from elevated clean vessels for the drinking water. The feeding vessels should be moved at frequent intervals so as to keep the chicks on fresh ground as much as possible.

For skittles of droppings, hoppers or water stands, write the Poultry Division, Central Experimental Farm, Ottawa, Ontario.

A Snappy Corn Cuckoo

An American walked up to a street corner seller's basket in London and picked up a large melon.

"Is that the largest apple you fellows can grow here?"

"That that grape down?" snapped the covey.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSN.

MILK

MILK is the most important food for young children. The child may take his milk as a drink, or on bread, cereal, or fruit. Milk is also used in making soups, custards, and puddings.

Milk is a liquid, but it should not be thought of as a beverage, as something to drink in place of water. Liquids are necessary and desirable, and most of our foods contain a large percentage of water.

A food containing about twelve per cent of solids. These solids are the very best food substance.

If you disregard a quart of milk, you secure about half a cupful of butter fat, milk sugar, and small amounts of certain minerals which can make muscles, bones, and teeth.

We cannot see these substances in milk because they are dissolved, but when we use milk we take them into our bodies and on reflection we are assured that the milk contains.

In addition to these food substances which build up the body and repair our bodies and on reflection we are assured that the milk contains.

There is no other food which can give us as well as the milk of a day for a child. It is most desirable that every child should receive the best milk which is derived from the best of a sufficient amount of milk each day in his diet.

There have been many experiments carried out in which the effects of milk upon children have been carefully observed, and these observations have shown that children do benefit by the use of milk.

Milk is rich in calcium (lime) and phosphorus. The green leafy vegetables are another source of calcium. The use of milk secures the body of an efficient calcium, the lack of which causes damage to the bones of the body and to the teeth.

A great advantage of milk is the ease with which it can be combined with other foods. The need of a properly balanced diet is frequently mentioned. The name "protective foods" has been given to milk and the leafy vegetables because of their ability to make good the deficiencies of other foods. If we use milk and leafy vegetables, we are protected from all the results of an unbalanced or deficient diet.

Milk is the one food for which we have no satisfactory substitute.

Questions concerning health, addressed to the Canadian Medical Association, 104 College St., Toronto, will be answered promptly, by letter.

IRRIGATION IN ALBERTA

CALGARY—Irrigation carried out in 1932 was the biggest in the history of southern Alberta, and as a consequence the land is in fine condition now, according to P. J. Jernigan, supervisor of irrigation in the Calgary district office of the Dominion Water Power and Reclamation Branch. "Without exception, all the large irrigation projects in southern Alberta used large quantities of water last fall," he said, "and in consequence their irrigated land was in good condition this spring."

GOODYEAR'S ONLY

Here's the Reason

We know tires. For years we've watched every make of tire in actual service. We've seen what it gives for its cost.

Our policy of selling only Goodyear is based on such experience. We've proved time after time that Goodyear gives longest, most satisfactory mileage. We're proud of the standard of Goodyear Superstix Cord and the great traction of the All-Weather Tread.

We make a smaller single profit on Goodyear tires. But we gain through their quality-selling more lines. And the complete Goodyear line gives us a tire and size for the particular need of every customer.

CHAPTER XI.—Continued

"Well, I was bursting to tell you—seemed as if I couldn't get here quick enough. I knew Grandma was out, too, and thought, maybe you'd like company. Besides, I wanted to borrow a lumpy pot for my dinner. I almost forgot it, same as I forgot to order when the boy came round. Don't you get up, Grandma, I know your ice box must as well as I know my own."

"And good reason too," murmured Grandma to herself as Miss Lizzie waddled off. "Seems as if in the last thirty years there's nothing Little Biker hasn't borrowed of me unless it's my tooth brush."

She turned to the window, stared for a moment, and then exclaimed: "Why, here comes Lawyer Garfield! What on earth would he want of me?"

CHAPTER XII.

Charman was finding her old schoolmate a rather unstable companion this morning. Once Grandma's cherry presence was left behind, he relapsed into silence, and was to all appearances giving his entire attention to the car. He didn't speak until they drew up before the Bascami house with its expanse of glaring window glass.

"I'll run in," said Charman. "Can get away from Enmy quicker than you can, and we mustn't bother." "I'm not liable to bother with Enmy Bascami," replied Jim, stepping out before Charman could move. "Or all the bors."

He left the sentence unfinished, and strode up the path, while Charman, who agreed with him about Enmy, smiled to herself as she watched him enter the side door without waiting to knock, and as she gazing the new windows disapprovingly when he came out, tossed Grandma's catalogue into the back seat, and said, as he started the engine: "Quick work that—considering Enmy's ordering a hat—no by mail!"

The suspicion of a smile curved his lips, and Charman laughed outright. "Did she ask your advice, Jim?"

"I don't get that way," said Jim, and usually smiled.

"That's better," approved Charman.

"What?"

"The smile. It makes you look more human. You're a terrible grim face, Jim, when you're upset mentally. Sometimes it scares me."

"Who said I was mentally upset?" he demurred, scowling.

"No one had to say it. It's been written all over you for the last hour. I suspect that I'm responsible for it in a measure, and that makes me sad. Won't you smile and be friends?" Jim smiled.

"You didn't quote correctly did you?" he inquired.

Charman only looked, and asked, as the car slowed down before a small, brown, shabby cottage: "Is this where you collect your interest?"

It didn't look as if the interest would—well, come easy. Jim nodded, and reached for a brief case containing papers.

"Oh, Jim," Charman spoke softly so as not to be overheard by any one within, "how can the poor soul meet things like interest? She has three children—well, four, counting the baby."

"Five," he corrected, and stepped out into the grass-green sidewalk.

"But—when does she get the money to pay you? She can't possibly."

"You don't have to worry about that, broke in Jim lightly, and turned away.

A queer, sick feeling crept slowly into the girl's heart. This didn't seem like the Jimmy Bennett she had at ways known. Did all men change when it came to business matters? she asked herself. Did none of them feel compassion for a woman who

had to struggle as this poor woman must be struggling to keep the wolf from the door? "Shabby, shabby door! Was it just part of the day's work to them—collecting what must be the pitiful savings of weeks and months? And was Jim, who seemed so kind, like all the rest? Didn't he care?"

Charman pulled herself together suddenly, realizing that Jim had been gone some time, and that unless he hurried Doctor Carter would undoubtedly dine on the contents of a cold bean pot. Then the door opened, and though the woman smiled and shook hands with Jim, Charman saw the unmistakable traces of recent tears in her red-rimmed eyes, and the girl's heart hardened a bit toward her old playmate and the hard, harsh world of business that was a part of him.

"Did she pay it?"

"The question came almost against her will as they started back.

"She did," said Jim. "That's why I went there, wasn't it?"

"And you don't feel like—like Shylock?" burst from Charman in sudden, overwhelming indignation.

Jim looked at her in amazement. "Why in thunder should I feel like Shylock?"

His voice was cheerful, more cheerful than it had been since they started out.

"If you don't know," Charman replied coldly, "it would be useless for me to try to tell you. And it was she who was silent on the ride home."

CHAPTER XIII.

Sorry the ride wasn't more of a success," said Jim, as he left Charman at the side door.

He smiled rather wistfully, but it was not the smile of a man who lingers with her as she turned on the stove dials. Something in Jim's voice had brought back the uncomfortable feeling she had experienced earlier that day, when she thought he had hurt him. And he was right. The ride hadn't been much of a success. Charman was, she told herself, ridiculously disturbed about it. Only the persistent pounding of Great-grandmother's David's guided hand, roused her to the fact that she hadn't run in to speak to Grandma, as was her almost invariable habit on reaching home.

"Well," exclaimed the old lady, as her granddaughter appeared in the doorway, "so its you! I didn't know but what it was a tramp, so I made all the noise I could. Where's Jimmy? Gose? Dear me, I had something to tell you. You needn't be round so, childy, because the doctor won't be here to dinner. They're taking some one to the hospital at Eastern. He telephoned an hour ago. Sit down, Charman, and let the dinner wait. There's news a plenty."

"News? Who brought it?"

"Lizzie Baker, and she to die of appoplexy she was from running. And after she'd gone home (by the back door) she was borrowing some butter. Gam Garfield brought the rest of it. He wanted to know the value of those beads we sold the deacons?"

"Don't tell me we've got a law suit on our hands?"

"And an answer was Lizzie gone that I looked out and saw Gam Garfield crossing the street. It gave me a start! He walked in kind of a queer way. He likes to look that way when he has a case sort of important. But I wasn't going to have little Gam Garfield put on airs with me, so I told 'Morning Gam, I was just thinking of the time I caught you hanging by the seat of your trousers from our Porter apple tree. You were seven years old, and you'd eaten yourself sick, so I didn't have the time to give you the spanking you deserved for stealing fruit. That sort of—well, took the wind out of his sails, as you might say."

(To Be Continued.)

Worma feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother's Own Worm Expeller.

Had Excellent Idea

South Carolina Editor Expected To Front Two Ways

Robert Quillen must have thought he could kill two birds with the one stone when he ran this in the Enquirer, Fountain Inn, S.C. Tribune:

Free Rooster Saturday

Some weeks ago I bought a white Leghorn rooster. To be sure, he is worth \$25, but the rascal crows at 3 a.m. and I don't get to bed until after 12. Being waked at 3 makes me more. So I'm giving him away Saturday to somebody who pays a year's subscription. You may be the one to get him. If only one person pays his subscription, he gets the rooster. If two pay, we'll draw. If a dozen or more pay we'll draw.

Hot water destroys the lustre of a pearl.

In Sunny Alberta

Children in Red Cross Hospital Benefit By Sun Bats

Where the lordly Saskatchewan flows through the capital city of Alberta, you will find evidences of the new healthier which is restoring strength and beauty to white faced children.

Every sunny morning, when the rays of healing sunshine come with warmth and light, there is great commotion in the children's wards of the Red Cross Hospital. Nurses are busy with the large cots while nurses supervised the babies beds, as the procession of little sun-worshippers winds its way to the outside porches and verandahs. Here the children lie all the sunny hours of the long day, drinking in health at every pore. Passers-by stop and glance with interest at the little patients basking in the sun-bath, which means so much after winter indoors. For indoor treatment, is found in the Red Cross Ward, a quartz-lamp room that even on dull days the little sick ones may receive sun-treatment by lamp. From the Kinsmen's Club of the city of Edmonton this gasolene lamp was donated and much benefit is derived from this wonderful new invention.

May Resemble Patriots

But Methods Of Americans Less Peaceful Than Gandhi's

There is an interesting analogy between a certain day in the life of Charman in Boston harbor more than a century and a half ago and a salt party at which Mahatma Gandhi was host the other day in the Gulf of Cambay, at Dandi, India. As the symbol of American non-resistance, or salt, or the government monopoly of that commodity has been made a focus of India's resistance to British rule, the American non-resistance may bear resemblance to the American patriots of 1776, but his peaceful methods are singularly unlike theirs. They were determined, as is Gandhi, to maintain a boycott on taxed English goods, but they were not so careful as he is to urge that all resistance be of a passive nature.

GIVE CONFIDENCE TO YOUNG MOTHERS

A simple and safe remedy for the common ills of babyhood and childhood is Baby's Own Tablets. Where there is either a baby or a young child. Often it is necessary to give the little one something to break up a cold, allay fever, correct stomach trouble, and banish the irritability that accompanies the cutting of teeth.

Experienced mothers always keep Baby's Own Tablets in the home as a safeguard against the troubles that seize their little ones so suddenly and often. Mothers can feel sure that Baby's Own Tablets are a box of these Tablets at hand and ready for emergencies.

Baby's Own Tablets are small but thoroughly effective that cut without grating and are guaranteed free from opiates or other harmful drugs. They are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadians Should Be Content

A front page editorial of the Bradford, Ontario, Expresser recently, pointed out that business depression was largely hysteria and psychology. There is a great deal in that view. When war broke out, people in certain countries began putting their money into bonds and not letting it work for the general good. This habit, of course, only aggravates conditions for a time until confidence is restored. And there should be no lack of confidence in the present day in the future of this country. Canada should never be sold short."

The patient: Can this operation be safely performed, doctor?

The Enthusiast Surgeon: That, my dear sir, is what we are about to do over.

Old Hen: "Let me give you a piece of good advice."

Young Hen: "What is it?"

Old Hen: "An egg a day keeps the ass away."

Base Ball

Baseball players use Minard's for stiffness, strained ligaments and bruises. They also recommend it as a rubdown.

MINARD'S LINIMENT

The sea of matrimony is very rough. That is why one voyage is usually enough.

Campers Carry Minard's.

To clean greasy pots and pans

Just use a teaspoon of Gillett's Life in about a gallon of cold water* and you have a mixture that will instantly clean even the griest pots and pans.

GILLETT'S LYE

HAS HUNDREDS OF DAILY HOUSEHOLD USES

Medals For Outstanding Bravery

Awards Made By Royal Canadian Humane Association

In recognition of her outstanding bravery in the Four Mile Lake tragedy, near Hanley, last August, Khush Haladon, youthful heroine of the episode, has been awarded a bronze medal by the Royal Canadian Humane Association. Word of the award was received in Regina in a despatch from Hamilton, Ontario, where the Board of Investigating Government of the Association.

Parliament certificates for bravery were also awarded to Oscar F. Trask, Marion Trask, C. A. Trask and John C. Trask, who figured in the rescue work at Four Mile Lake.

Others awarded parliament certificates are: Robert Campbell, Vancouver; George Maynard and Austin Massey, Ocean Falls, and C. Kneeshaw, High River, Alberta.

At its meeting recently, the Royal Canadian Humane Association awarded nine bronze medals and 22 parchment certificates, two of the medals being sent to Saskatchewan, along with five of the parchment certificates.

The second recipient of a bronze medal in this province is Lawrence C. Marlow, Haliburton, for his bravery in rescuing Evelyn H. Peterson from a burning building, and for saving Henry Cohen from drowning. Hartley Smith, Haliburton, who assisted in the rescue of Aaron, receives a parchment certificate.

Other recipients of bronze medals are: Alexander F. Milne, Winnipeg; John C. Trask, for the rescue of six children from a burning house; Joseph Frem, Nanaimo, B.C., for the rescue of Jos. Edmund Corlett and Mrs. John Corlett from drowning; Constable Thomas Smith, Ocean Falls, B.C., for the rescue of two men from drowning; John C. Davidson, East Kildonan, Man., for rescue of party of four from drowning.

Persian Balm provides daintiness, charm and beauty. Magical in its effect on the skin. There is nothing like it for creating and preserving a lovely complexion. Cooling, refreshing, it soothes and relieves all roughness caused by weather conditions. Delicately fragrant. It enhances the most finished appearance. Makes the skin cool-soft in texture. Truly a priceless aid requisite for every discerning woman.

Teach Blind Children

Physical Training

Unable To See Instructor Boys Follow Commands Easily

Blind children, handicapped by their lack of sight, have overcome many obstacles imposed by nature, but probably one of the most important achievements to their credit within the last year is their triumph in the realm of physical training, an insight into which was given at a class conducted by H. C. Patterson, physical director of the Central Youth Men's Christian Association, at Montreal.

Unable to see their instructors, the boys followed the commands and the practical ease of their more fortunate brothers who can see, and it was explained that, as a result of the carefully conceived plan for training these children, it was possible to lead them in certain exercises, the object of which is to help them increase their physical fitness. Similar results have been obtained with deaf and dumb children.

The sea of matrimony is very rough. That is why one voyage is usually enough.

Campers Carry Minard's.

Little Helps For This Week

"Whosoever will come after Me, let him deny himself and take up his cross, and follow Me."—Mark viii, 34.

The cross is not so hard to bear as I have learned to say. O Lord, I will not anywhere. Unless Thou leadest the way. —St. R. Leary.

Both above and below, which way soever thou dost turn thee, everywhere thou shalt find the cross; and everywhere of necessity thou wilt have patience if thou wilt have inward peace, and enjoy an everlasting crown.—Thomas A. Kempster in *God's Way*.

To repel one's cross is to make it heavier.—Henri Frederic Leconte.

Old Engine Still In Use

Claimed to be the oldest passenger engine still on active duty at Ryde, Isle of Wight, a locomotive owned by the Southern Railway has traveled 1,500,000 miles in 66 years and maintains a regular run on the line between Brading and Basingstoke.

Use Minard's for Burns.

France is the chief source of the lavender flowers used in manufacture of lavender water.

Wealth, according to a lecturer, is a disease. It can cause most of us are in robust health.

The crow is closely related to the bird of paradise.

Conventions In Martinis

Two important conventions are to be held in Wofford, Nova Scotia, during June that of the Canadian Seed Growers from the 10th to 21st of that month, and that of the Canadian Seed Testing Association, a week later. As regards the second it is the first time that the Martinis have been chosen for its convention.

Radio-telephone conversation which was held recently between New York and Sydney, Australia, by way of London, a distance of 15,000 miles, is said to be the longest on record.

Daughter Is Stronger Now

"My daughter Catherine is fifteen years old. She was very irregular, often sick at her stomach and had to stay in bed two or three days at a time. One of your booklets was sent to us by mail as I got her a bottle of Vegetable Compound. Catherine has been taking it regularly and she is gaining in weight and every day. I told the neighbors and four other girls are taking it with good results."—Mrs. Clarence Johnson, Box 14, Thorncroft, Ontario.

McCormick-Deering Tractors

**Make
Power
Farming
Profitable**

Power farming has become recognized as a means of increasing farm returns through lower production costs. Successful farmers speak highly of their tractors which permit more days and longer days in the field, when necessary—tractors which are dependable under adverse weather conditions and supply economical power.

McCormick-Deering tractors are the result of over twenty-five years of successful tractor building experience. They are practical power units for everyday farm conditions. They provide the maximum amount of service and economy of operation.

The new McCormick-Deering 15-30 tractor has greater reserve power and increased economy as the result of improved features which have been added. This powerful unit, together with the complete line of McCormick-Deering power-operated machinery, places the western farmer in a position to compete with any grain growing section in the world. The increased power of this new tractor enables you to plow, drill, harrow, mow, and harvest faster, better, and at less cost than ever before.

The owner of this tractor has a ready source of power on the belt or power take-off.

Second Fortnightly Crop Report

Issued by the Department of Agriculture,
Province of Alberta

Reports from numerous correspondents throughout the province indicate that 95 per cent of the wheat seeding is completed. Much of the wheat is above ground and with growth is slow due to continued cool weather, germination is uniform and the crop is of excellent color.

From 25 to 40 per cent of oats and barley is already seeded, and 70 per cent of sugar beets. The opinion generally expressed is that the wheat acreage is practically the same as that of last year, while the area devoted to coarse grains shows an increase of from 10 to 15 per cent.

Moisture is sufficient for immediate needs in all parts of the province. Those areas, however, which suffered severely from drought in 1919 will require continued and abundant rainfall if good yields are to be obtained. Weather during the past fortnight has been cool, with frequent showers in which all parts of the province have shared.

The season of 1920 did not induce satisfactory germination of wild oats and other weed seeds, consequently an unusually large number of weeds are growing this season. In some districts seeding has been delayed in order to destroy these weeds before the grain is sown.

In the central and northern parts of the province pasture and hay is growing slowly and considerable killing of sweet clover is reported. Alfalfa in the irrigated districts is making rapid progress. The condition of pasture in the range areas is reported to be satisfactory and live stock is in reasonably good condition.

All correspondents report ample labor supply.

MOTHER'S DAY ENTERTAINMENT AT CHANCELLOR

The Chancellor Women's Institute held their Mothers' Day entertainment in the Memorial Hall on Friday May 2nd. More than one hundred ladies attended and enjoyed a delightful program. A dairy tea was served the guests, and the plant sale was well patronized. A program of songs, readings, and instrumental numbers was enjoyed by the ladies.

William McKenzie, Old Timer, Died May 12

Death removed an old timer of this district in the person of William McKenzie, who died in the Bassano Hospital last Monday, May 12. He was 58 years of age.

William McKenzie came here in the early days, and worked for the Bar U Ranch along about 1907 and 1908. He has been running for the past few years in the vicinity of Coombs and south along the Bow River.

For the past few months he had been suffering from stomach trouble, and finally succumbed on May 12.

Mr. McKenzie was well known to all the early residents of the district, and the death of this old timer is deeply regretted by them. He was a bachelor.

The funeral was held on Thursday afternoon, May 13, and interment was made in the Bassano Cemetery.

First Wednesday Half Holiday on May 28

The first Wednesday half holiday will be observed in Bassano on Wednesday afternoon, May 28. As there is a statutory holiday on Saturday, May 29, there will be no Wednesday half holiday the same week.

The Wednesday half holiday season is from May 15 to August 15. Wednesday, May 14, was just outside the half holiday period.

On a Wednesday half holiday the stores will close at one o'clock noon.

A daughter was born to Mr. and Mrs. Floyd Hall, of Makepeace, on Wednesday, April 14, at the Bassano Hospital.

Emory LeGrand, of Hussar, is a patient in the hospital here. He is doing well following an operation for appendicitis.
